

Fast, fresh, achievable pickup & delivery options

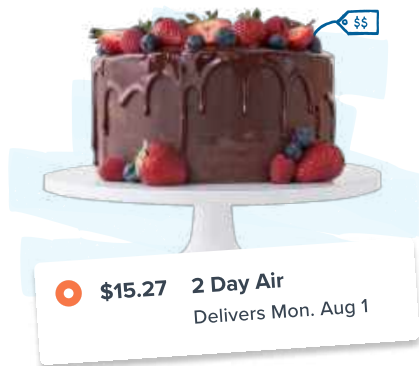

Create a customized shipping experience that drives more conversions at checkout, keeps customers happy, deliveries fresh, and prevents costly shipping mistakes.

“ Using ShipperHQ has meant reduced cart abandonment and dramatically increases the customer’s trust in ordering fresh seafood without compromising taste or quality.

65% of shoppers are willing to pay more for expedited deliveries

Customer Experience

Shipping rates & delivery dates that convert

Customers expect fast or free shipping and they want to know when their order will arrive

- ✓ Display expedited shipping and free shipping on select products or destinations
- ✓ Set a maximum time in transit, to account for perishable items, and blackout dates for holidays and closures

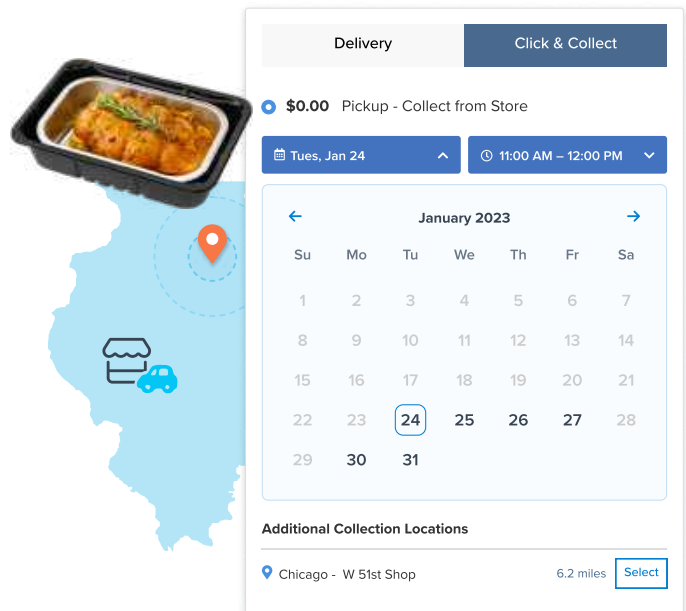

Calendar & Pickup

Deliver on convenience

Offer your customers the control and convenience they crave with superior in-store pickup options at checkout.

- ✓ Display all pick up locations or limit them based on a maximum distance radius from the pickup location
- ✓ Allow customers to select their preferred date and time for delivery and pickup*
- ✓ Show exact pickup locations via Google Maps with store hours and contact information*

*Delivery date calendar, timeslot selectors, and store map display are exclusively available for Adobe, Magento, Shopify Plus, BigCommerce, and Zoey merchants on select plans.

Hide "Express Method" when zones include "Texas"

Surcharge \$2 when "Cheese" is in the cart

- \$8.99 Standard Ground**
Delivers Tue. Dec 6

Accuracy & Control

Shipping that matches your real-world operations

Specify shipping conditions, methods, warehouse and locations down to the product level and return the cheapest rates at checkout.

- ✓ Rate from the most efficient location so products stay fresh and your customers' see the cheapest options
- ✓ Ship products from multiple locations and show one low rate
- ✓ Use shipping rules to hide unnecessary expensive expedited methods to nearby customers

Dimensional Packing

Rates that account for how you pack

Control packing rules, boxes and box settings so your products stay fresh and get rated accurately.

- ✓ Use box settings to account for added weight and bulk of icepacks and insulation
- ✓ Use packing rules to pack perishables and non-perishables separately
- ✓ Rates based on the dimensional weight of packed shipments no matter what's in the cart
